EXAMEN TIPO A

The three Brontë sisters together published a book which contained the poems written by each one of them. The book received some favourable reviews but only sold two copies. We can imagine how they must have been feeling after the poor reception of their first book and in the midst of the family tragedy. Were they despairing, were they thinking of giving up?

Despite all their sorrows, worries, solitude and disappointment, the three sisters did not despair and they continued to apply their talent and determination to writing. They have left the world with some of the most extraordinary novels in the history of literature: Charlotte's most famous work is *Jane Eyre*, Emily's only and equally well-known novel is *Wuthering Heights* and Anne's second novel *The Tenant of Wildfell Hall*, though less famous than the former two, is nevertheless, just as interesting and magnificent.

The three sisters were all stricken by tuberculosis and died very young. The father outlived all his children and the fame and recognition of their work helped him bear the tragedy of their lives.

1. ¿Cuál de estos títulos define mejor la información del texto?

- a. Las penurias de la familia Brontë
