5.

- a) One celebrity whose style I admire is Zendaya. In my opinion, she has a very original and elegant way of dressing, and she is often considered a fashion icon.

What I like most about her style is that she is not afraid to experiment with different looks. For example, on the red carpet she sometimes wears bold and modern outfits, such as colourful suits or eye-catching dresses, while on other occasions she prefers more simple and classic clothing. This variety shows that she is confident and knows how to adapt her style to different situations.

Another important aspect is that her outfits usually reflect her personality. Even when she wears high-fashion designs, she looks natural and comfortable, as if she is completely herself. She also works with well-known designers, but she always keeps her own identity and does not lose her personal touch.

In conclusion, I admire Zendaya because her style is creative, confident and expressive. For me, she is not only a fashion icon, but also a role model for young people who want to express themselves through fashion.

b)

Fashion is a topic that is viewed in different ways by different people. Some people believe it is similar to art and an important part of modern life, while others think it is unnecessary and a waste of money. Both opinions have strong arguments.

On the one hand, fashion can be seen as a way of expressing yourself. People often use clothes to show their personality, culture or mood. In addition, the fashion industry is very important for the economy because it creates many jobs, such as designers, models and photographers. It also encourages creativity, in the same way as other forms of art.

On the other hand, some people argue that fashion is not essential and can be too expensive. They think that many people spend a lot of money on clothes just to follow trends that change very quickly. This can lead to unnecessary consumption and can also harm the environment due to the effects of fast fashion.

In my opinion, fashion is important in modern society, but it should be used in a responsible way. People can enjoy it as a form of self-expression, but they should avoid wasting money and be more aware of its environmental impact.
