PRUEBA DE ACCESO A GRADO SUPERIOR MADRID 2009 INGLÉS RESUELTO

MY FAMILY

I have never lived in a so-called traditional family in which people live with their grandparents, uncles, aunts, and other relatives. Even though I have never lived in a traditional family, I still prefer to live in a modern family.

Our family is considered average in size, my parents, my two sisters, and me. Since there are only three children, we are given a lot of attention and freedom. I remember when we were still in Hong Kong, we always had new clothes, supplies, etc. Everything we needed was provided for us.

On the other hand, my parents were very strict about our homework, and how we did at school.

I remember every night they spent time to sit down with us while we were doing our homework and they had to sign all our test papers.

In our family, most of the housework was done by our parents. I used to wash a few dishes at night and sweep the floors. During the weekend we were allowed to stay out late.

Sometimes, my friends and I decided to go up to the mountains and spend a few days there. My parents usually liked to go with us. I will never forget those times.

Things haven’t changed much since we came to this country, except we don’t have family trips anymore because our parents are busy working everyday, and we kids are busy studying and going to school.
