5. Write about 100 to 150 words on the following topic. Are there some jobs which are more appropriate for men than for women? State your opinion and give specific reasons and examples. (Puntuación máxima: 3 puntos)

In my opinion some jobs are more appropriate for men r for women but it doesn’t mean that a woman can’t do a man’s job or a man a woman’s job.

First of all, there are some jobs that require a lot of strength and men are, in general, stronger than woman, for example welders have to take heavy metal pieces and sometimes their job is dangerous. Secondly, being a teacher is a typical women’s job, because woman nature is nicer and more patient with children. However, it is true the fact that a woman can be a welder if she wants and a man can be a teacher if he wants, so this stereotypes are out of fashion.

To sum up, it’s time to forget old fashioned thoughts and try to achieve the job that we want, even if we are men or women.
